Secure Safe Reliable Convenient

A simple thing can improve security, safety and bring so much convenience. Automatic gates really do make life easier. You will never need to leave the comfort of your car to open the gate. Ultimate convenience with improved security and safety.

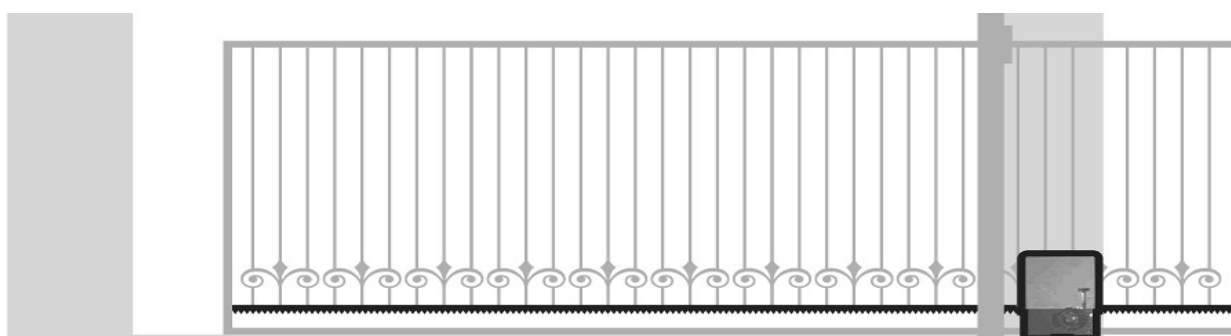

Whether you require solar or low voltage powered operation, your SL 2000 Sliding Gate Motor kit brings the following benefits:

- Simple straight-forward installation and set-up.
- Limit switches simplify the setting of the Open and Close gate positions.
- Standard safety inclusions like adjustable obstruction sensitivity with auto reverse.
- Generally, no electrician required, reducing installation costs.
- An adjustable auto-close function can be enabled.
- Built in manual release mechanism.

Additional accessories like extra remotes, push buttons and keypads are also available.

SL 2000 Sliding Gate Motor Kit includes:-

- 1 x 12V sliding gate motor
- 1 x control board and receiver
- 2 x handset transmitters
- Battery power source
- 12V AC Transformer or 20 Watt solar panel with bracket
- 4 Lengths of 1 metre gear rack
- 'Stop - Automatic Gate' sign
